

On February 12, 2003 I traveled to Oxnard, California to attend a meeting with Robert Lloy to discuss Scalarwave Technology and Scalarwave Structured Water™. At this historical meeting, I presented Mr. Lloy with the crystal photography of his structured water formulas. Later that year I invited Robert Lloy, to form a partnership which I named EmLloy, in honor of our surnames, Emoto and Lloy.

Mr. Lloy has invented a complex technology and corresponding manufacturing facility which is capable of imprinting coherent frequency information into water using his zero point energy field technology.

EmLloy products are distributed through our Hado Centers in Japan and now I am happy to introduce you this Indigo water of EmLloy Water series in the U.S.

Sincerely,  
Masaru Emoto

## Profits to go to the International Water for Life Foundation

In conjunction with the recent United Nations declaration of an "International Decade for Action - Water for Life," Dr. Emoto has formed a non-profit organization. The International Water for Life Foundation is dedicated to education, research and the establishment of a system for distributing the "water of life" throughout the world. Ten percent of profits from the sale of Dr. Emoto's Hexagonal Water are donated to this organization.

## Water has Structure

Water is a network of hydrogen-bonded molecules. It can form numerous structures, depending on how individual molecules bond together. One of these structures is the hexagon - composed of six water molecules. Hexagonal water forms an organized crystalline matrix with properties that are different from ordinary water.

Hexagonal water appears to play an important role in biological functions. It is being linked with improved hydration, enhanced nutrient absorption, DNA function and improvements in metabolic efficiency. The amount of hexagonal water in the body has even been correlated with aging.

Dr. Masaru Emoto was the first scientist to discover a method for visually revealing the structure of water. Through high-speed photography, he has been able to capture the structure of water at the moment of freezing. His work has demonstrated that a majority of the water we drink is lacking in organization and hexagonal structure. His work has also been important in determining that certain energetic influences can restore the biologically-preferred hexagonal matrix of our water.

## What is scalarwave imprinted, hexagonally-structured water?

Dr. Emoto and others have studied the effects of different energy fields on water's ability to organize and "hold" the perfect hexagonal structure. Using a combination of scalarwave energy, laser light, inert noble gases and frequency-emitting crystalline ceramic oscillators, Dr. Emoto's Water is hexagonally structured and imprinted with specific frequencies which are designed to stimulate and encourage mental coherence, symmetry and balance the qualities necessary for optimal functioning in a complex world.

Dr. Emoto formed a partnership with Robert Lloy in 2003. "EmLloy" Mr. Lloy is the inventor of the Voice Spectral Analysis program and the miracleITM and has synergistically combined formulas of proprietary frequencies with scalarwave energy to the above mentioned technologies to create hexagonal structured water. The mission and intent of the EmLloy partnership is to provide humanity with structured water to uplift and raise consciousness.

## Super-hydrating water

Most tap water and bottled water is composed of large water conglomerates which are too large to move freely into the cells. This water must be reorganized within the body in order to penetrate the cells. However, the smaller molecular structure of hexagonal water allows for faster transit through cellular membranes. This has been verified using Bioelectrical impedance analysis (BIA).

Donald Mayfield, NMD, DOM, uses BIA and a variety of other methods to access the level of health in his patients. According to Dr. Mayfield, there is no question that hexagonally-structured water provides more rapid hydration.

*"Hexagonal water helps to improve a number of measurable parameters in the human body. In my experience, even though many of my patients are drinking the recommended amount of daily water, they are still dehydrated. Hexagonally-structured water hydrates the body more rapidly by encouraging faster water uptake. I have been able to observe that the intracellular/extracellular water ratio begins to normalize within 10-15 minutes."*

*"Because of its link to so many functions, hexagonal water also appears to "jump-start" numerous bodily functions — even to enhance the water-protein communication network in the body."*

## The Importance of Hydration

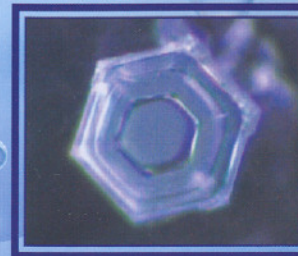

Most diseases can be traced to dehydration. It is the number one cause of stress in the human body. When there is insufficient water, every biological function suffers. Chronic dehydration has been linked with headaches, asthma, colitis, diabetes, heartburn, peptic ulcer pain, high blood pressure, blood cholesterol and many other symptoms. However, our most recent research is revealing that it is not just the lack of water, but the lack of hexagonally-structured water that is of greatest importance.

Dr. Emoto's Hexagonal Water is more easily assimilated at the cellular level. It may be one of the best ways to overcome dehydration and protect your body from the symptoms of disease and premature aging. Within minutes, Dr. Emoto's water moves into the cells, taking nutrients and expelling metabolic wastes more efficiently than bottled water.

## Energetically powerful water

Dr. Emoto and others have theorized that water has the ability to receive and transfer what the Japanese call "hado" (vital energy). The perfect hexagonal geometry appears to have a greater capacity to transfer this vital energy.

*"We have obtained the energetic and symmetrical water crystal formation from our Indigo water."*

Before

After

*Robert Lloy*

*Masaru Emoto*

Robert Lloy is an inspired inventor whose life work has been in the field of cellular memory. One of Robert's major inventions, Zero Point Scalarwave Technology was used to deliver Alpha, Theta, Delta brain frequency information based upon his Voice Spectrum Analysis Software. He used his proprietary technology to stabilize a new approach to imprinting frequencies into water and is considered by many to be one of the true grandfathers of structured water. Previous researchers adapted a homeopathic approach of diluting herbal extracts to frequencies, then adding stabilizers to prevent growth from occurring. After examining and photographing Robert's water, Masaru Emoto selected Robert Lloy to create the EMLOY (Emoto-Lloy) series of Scalarwave Structured Waters for his Hado clinics in Japan.

Masaru Emoto graduated from the Yokohama Municipal University and received certification as a Doctor of Alternative Medicine from the Open International University. Through his extensive experience working with the mysteries of water and vibrational theory, he came to realize that the power of water must be shown visually for more people to understand. Thus, he has created the technology to capture photographs of frozen water crystals under a microscope. Since then, he has advocated the message of peace found in these crystals all over the world. He has written varieties books in Japanese which have been well received and translated into many different languages. His work has recently been featured in the movie, "What the Bleep Do We Know!?" in the U.S. and now his work is very popular in the U.S.

### *How to Drink*

How well your body replicates cells depends very much on the ingredients it has to do the job with. But even more important is how the ingredients are being carried into the cells. Hexagonal Scalarwave Structured Water™ has the correct geometry to penetrate the membranes of the cells and deliver the ingredients. We encourage you to also drink or mix the Hexagonal Scalarwave Structured Water™ with any food, herbal shakes, protein powders, herbs or vitamin supplements etc. to boost the body's ability to absorb the nutrients.

For maximum power and best results we suggest mixing 2 ounces of concentrate to 1 gallon of distilled water. Minimum Mixture is: 1 ounce or more of concentrate to 1 gallon of distilled water. You can increase the amount of concentrate to increase the potency of the beverage. Use 1 oz plastic measuring cup, plastic tablespoon or glass measuring device, Do not use metal, shake well. Let mixed solution blend 30 min before consuming. You must use distilled water. We need to start with water that has been stripped of memory. When you mix distilled water with our concentrate, it is converted to structured water. The new structured water produces a perfect geometric crystal structure.

Dehydration is a major problem. Our water duperhydrates and if given a choice should be the only water you drink. We recommend drinking at least 2 gallons per week. Since Hexagonal Scalarwave Structured Water™ tends to liberate energy, it is NOT recommended that you consume Hexagonal Scalarwave Structured Water™ within 30 min before you sleep as it may keep you up.

### *Raising Consciousness*

Dr. Emoto's "Message from Water" books and his recent exposure in the movie, "What the Bleep Do We Know," have changed our understanding of consciousness and our connection with water. As a long-time advocate for peace in relation to water, Dr. Emoto acknowledges his role as a "messenger," teaching and conducting seminars throughout the world.

His mission - to raise the level of awareness concerning water, and to heal the earth's water includes a recognition of the fact that we are mostly water. Re-establishing the perfect geometry in our "water bodies" is one step towards that goal.

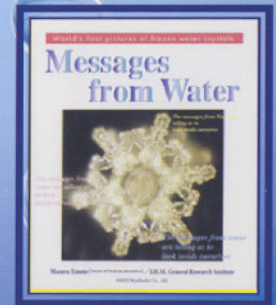

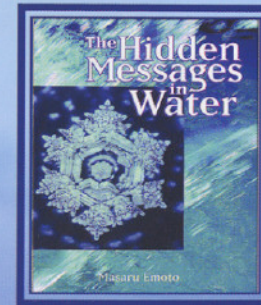

After many years of research and conscious deliberation, Dr. Emoto is able to provide the world with a stable, consumable hexagonal water, imprinted with frequencies to support creativity, balance and conscious awareness.

# *Dr. Emoto's Hexagonal Water*

A geometrically perfect water with the "Message" your body is waiting to receive.

Dr. Emoto's "scalarwave imprinted," "hexagonally-structured" water will open new levels of awareness as your body receives the "Message from Water" and responds in a whole new way!

"The Messages from water are telling us to look inside ourselves." – Dr. Masaru Emoto
